

SECTION 5 – INTRASTATE TOLL SERVICE

N

5.1 General

Intrastate Toll Service means the transmission of 2-way interactive switched communication between local calling areas as defined in Section 9 of this Tariff within the State of Michigan. Intrastate Toll Service does not include individually negotiated contracts for similar telecommunication services or wide area telecommunications service.

Outbound intrastate toll Service is distance and time-of-day insensitive and is available to residential and business customers. Customers are presubscribed to the Company's network or that of its underlying carrier.

The Company offers direct dialed (1+), inbound toll-free (8XX) service for communications originating and terminating within the State of Michigan under the terms of this Tariff.

5.2 Usage Charges:

The following rate applies to outbound intrastate toll service calls and inbound toll-free service calls:

Per Minute Rate: \$0.059

Rates on individual contract basis may also be available based on term and volume commitments.
